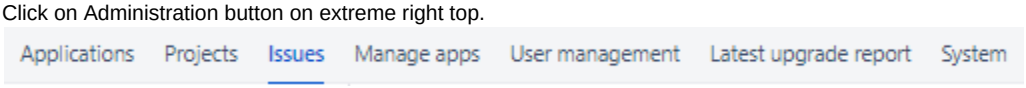
Jira-App-Configuration Strategy

Jira Configuration User Stories

1. Get trail license for Jira instance configured automatically.
2. Add new issues types
3. Add standard workflows
4. Add different groups

Click on Administration button on extreme right top.



ISSUES TYPES

Issue types

Click on – Issues types
Click on – add new issue type:
Initiative
Description: To track initiatives apart from core business and technology projects
Bug
Description: A problem which impairs or prevents the functions of the product.
Task
Description: A task that needs to be done.
Selecting Add Type as: standard issue type for all above issue types
And SubTask
Selecting Add type as: standard sub task
Description: The sub-task of the issue

Issue Type schemes

Click on – Issue type schemes
Click on – add new Issue Type Scheme
Demo – DevOps Issue Type Scheme
Add all issue types and save.

WORKFLOW

Workflow schemes

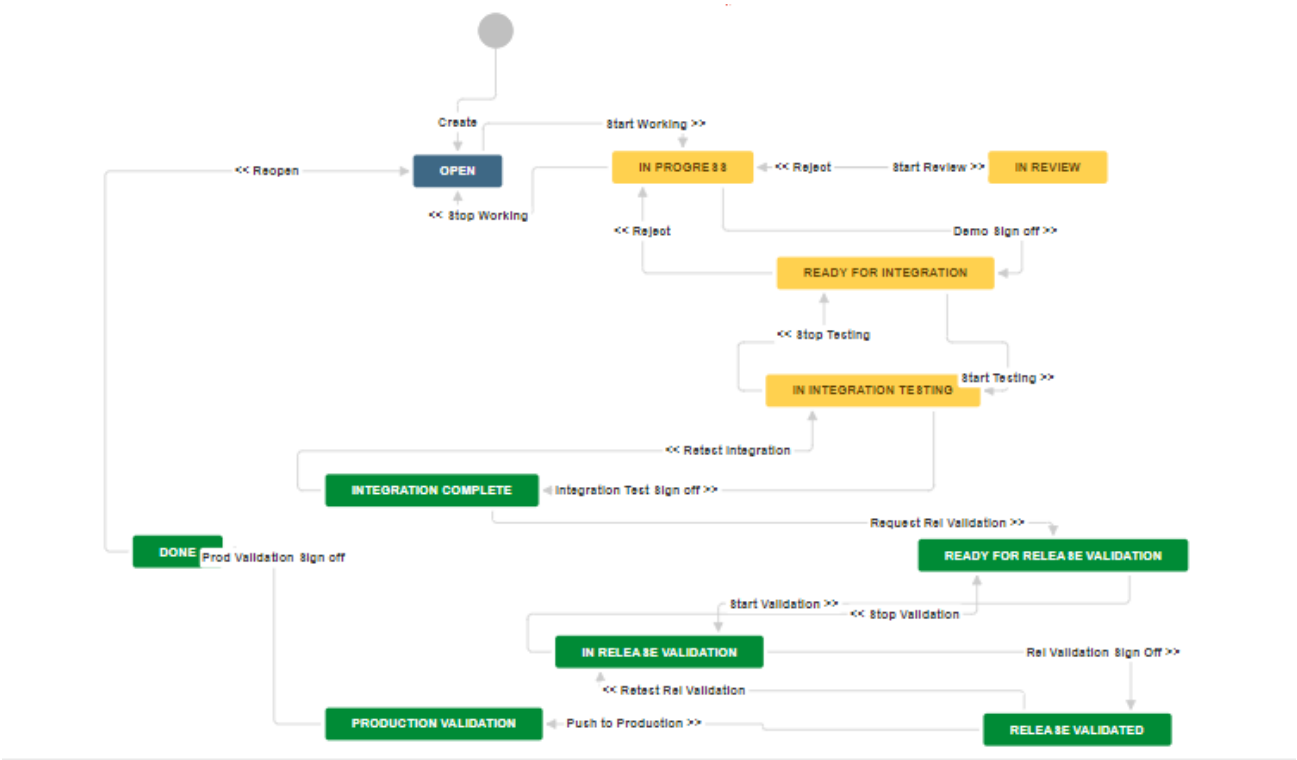
Click on – Workflow schemes
Click on – add new Workflow Scheme
Demo – DevOps Workflow Scheme
Click on Add workflow button.

Import from the computer. jwb demo – Devops Workflow

Update name for workflow- Demo DevOps Workflow

Make sure proper workflow created
Custom workflow for Story/Bug
Transitions

1. Backlog OPEN
2. OPEN IN PROGRESS
3. In Progress In Review
4. In Review In Progress
5. In Review Ready for integration
6. Ready for integration integration testing
7. Integration testing Integration complete
8. Integration complete Ready for release validation
9. Release validation Release validated
10. Release validated Production validation
11. Production validation Done



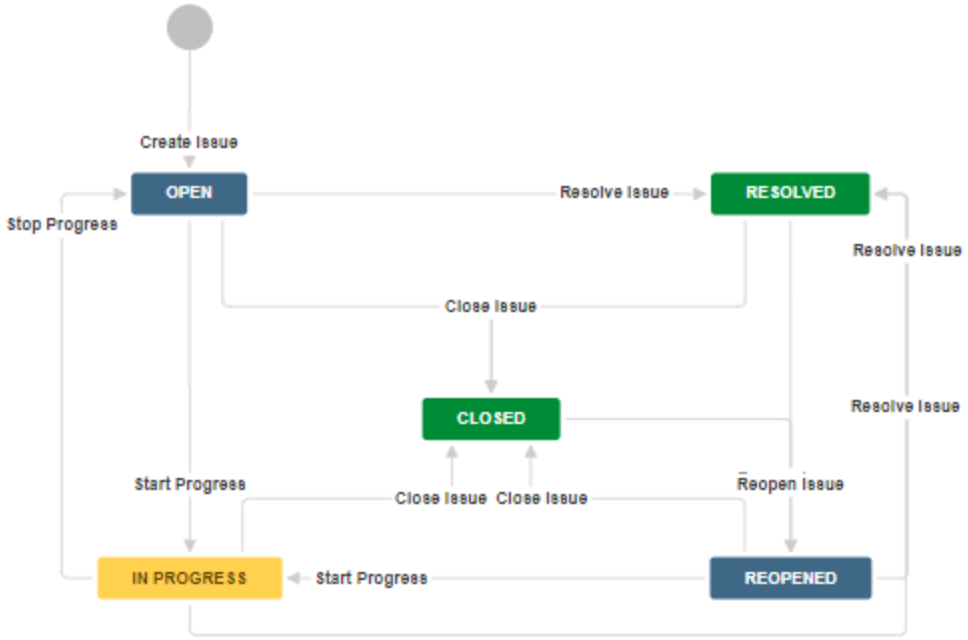
Plan Transitions:

12. Conditions
13. Validators
14. Post Functions

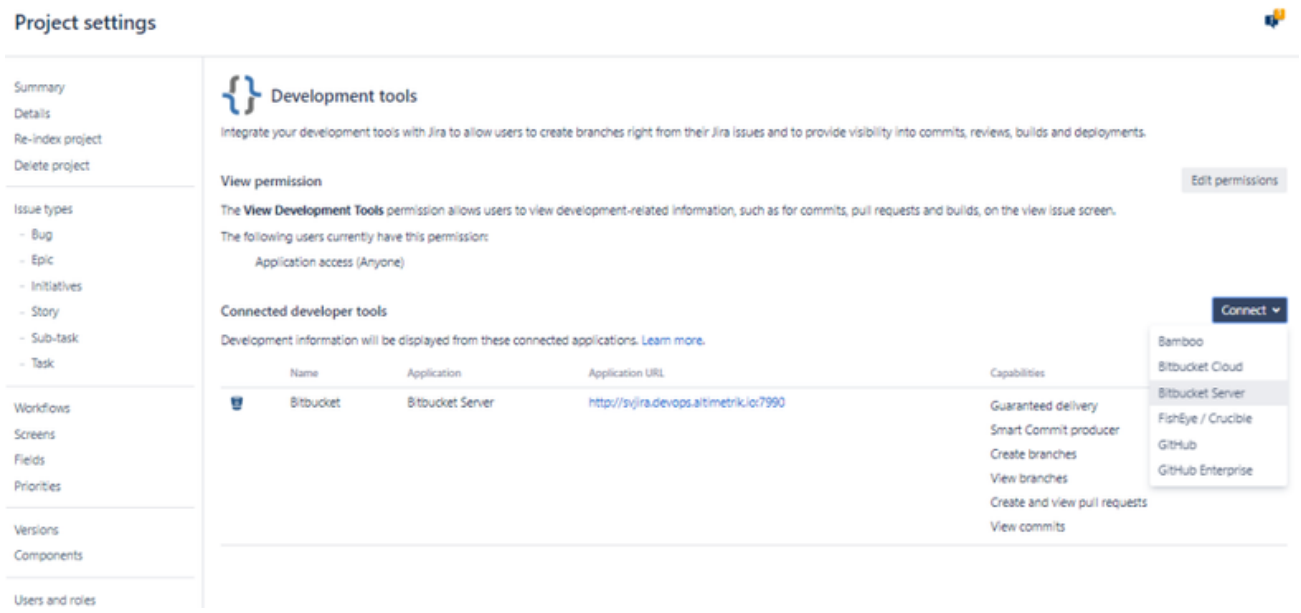
- Workflow for all other Issue Types

Transitions

1. Backlog OPEN
2. OPEN In Progress
3. In Progress RESOLVED
4. RESOLVED Closed
5. RESOLVED REOPEND
6. REOPEND RESOLVED



Customization after the basic configurations



Click on add project.
You can import the demo projects
Create a specific project using custom workflow and issue types
Settings

- Configure Project Linky

Notifications

- Email notifications for different transitions work flows

Development Tools

- Bitbucket server – using the cluster stack name configured it accordingly.
- Need to make sure whatever the application you want to configure its part of the cluster or you use independent bitbucket server with configurations

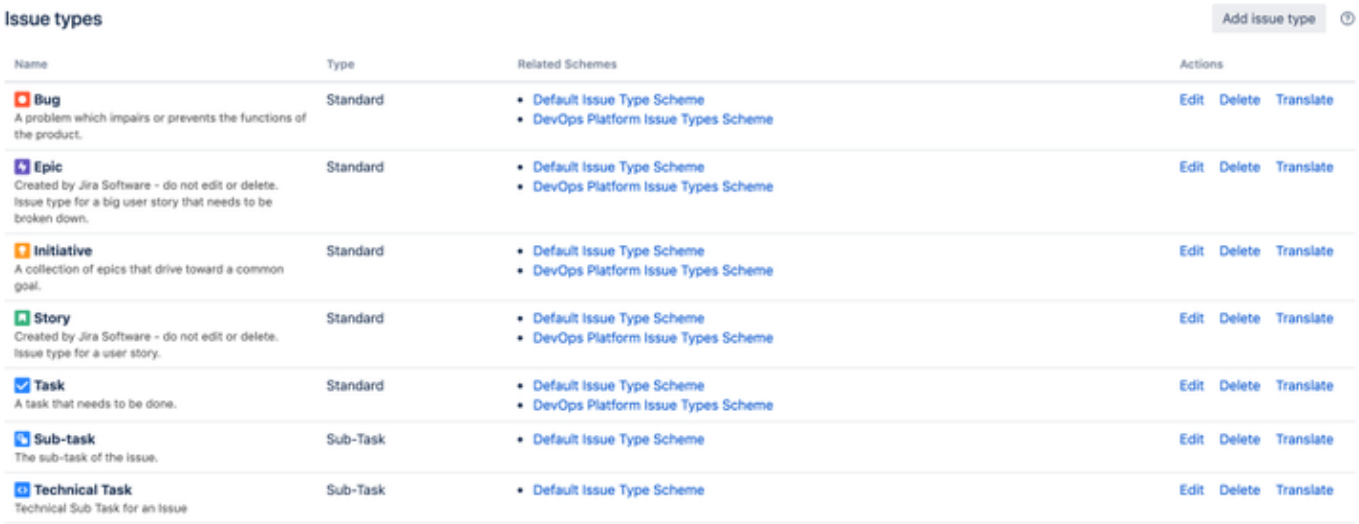
Versions:

- 1.0
- 2.0

Components
i.e.

- Platform Services
- UI Services
- User Services

User Stories -
Issue Types, Issue Type Scheme, Sub-Task Type



Issue type schemes

Add Issue Type Scheme

An issue type scheme determines which issue types will be available to a set of projects. It also allows to specify the order in which the issue types are presented in the user interface.

Name	Options	Projects	Actions
Default Issue Type Scheme Default issue type scheme is the list of global issue types. All newly created issue types will automatically be added to this scheme.	Epic Story Bug Initiative Task Sub-task Technical Task	Global (all unconfigured projects)	Edit Associate Copy
DevOps Platform Issue Types Scheme DevOps Platform Issue Types Scheme	Epic Story (Default) Bug Initiative Task	No projects	Edit Associate Copy Delete

Sub-tasks

Add sub-task issue type

Sub-Tasks are currently turned **ON**. You can manage your sub-tasks as part of standard issue types here.

- **Disable Sub-Tasks**
- **Translate Sub-Tasks**
- **Manage Sub-Tasks**

Name	Description	Icon	Actions
Technical Task	Technical Sub Task for an Issue		Edit Delete
Sub-task	The sub-task of the issue.		Edit Delete

Priorities, Priority Schemes, Delete default Priorities, Change Order of Priorities

Priorities

Add priority

The table below shows the priorities used in this version of Jira, in order from highest to lowest.

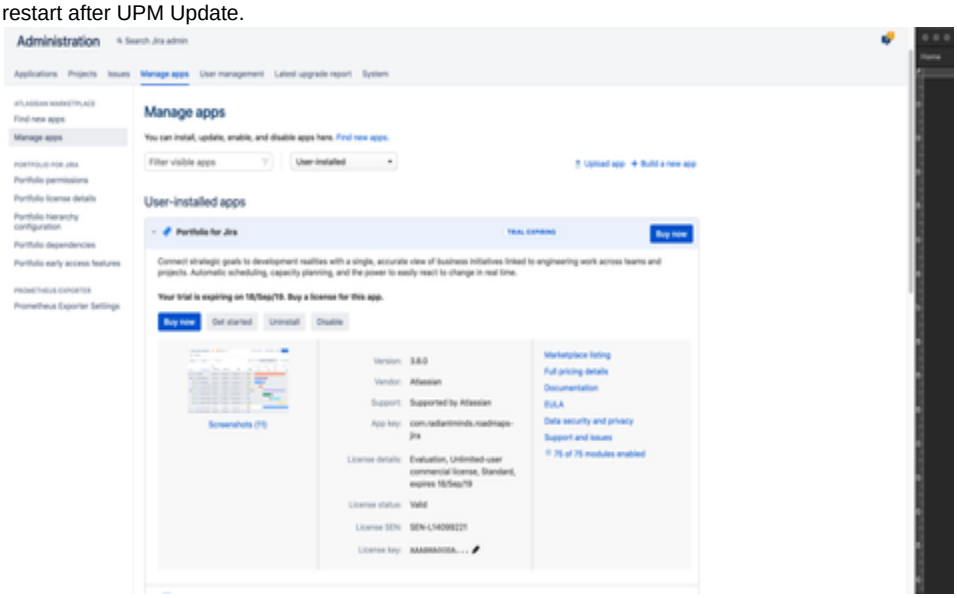
Icon and name	Description	Color	Order	Used by	Actions
Blocker	Blocks development and/or testing work, integration, production could not run.		↓	2 schemes	Edit Delete
Critical	Crashes, loss of data, severe memory leak.		↑ ↓	2 schemes	Edit Delete
Major	Major loss of function.		↑ ↓	2 schemes	Edit Delete
Medium	Has the potential to affect progress.		↑ ↓	2 schemes	Edit Delete
Minor	Minor loss of function, or other problems where easy workaround is present.		↑ ↓	2 schemes	Edit Delete
Trivial	Cosmetic problem like misspelt words or misaligned text. Mostly non functional issues.		↑	2 schemes	Edit Delete

View priority schemes

Add priority scheme

Name	Priorities	Projects	Actions
Default priority scheme This is default priority scheme used by all projects without any other scheme assigned	Medium Blocker Critical Major Minor Trivial	Global (all unconfigured projects)	Associate
DevOps Platform Priority Scheme Custom Priority Scheme	Blocker Critical Major Medium(Default) Minor Trivial	No projects	Edit Associate

Install Portfolio for Jira Plugin and Provision Trial License for the Plugin & Update all other plugins/UPM before next steps. This involves auto restart after UPM Update.



Create Custom Screens, Screen Schemes, Issue type screen schemes

- Default Bug Screen
- Default Epic Screen
- Default Portfolio Initiative Screen
- Default Story Screen
- Default Sub Task Screen
